

Mario Jones II

Frisco, TX | (618) 581-8515 | mario.jonesii@jjsellc.com | www.linkedin.com/in/mario-jones-ii | <https://parbii.github.io/>

PROFESSIONAL PROFILE

- Data-driven Management Information Systems student with a proven ability to architect Python-based data pipelines, automate financial reporting, and translate large datasets into actionable strategic solutions.
- Highly effective cross-functional leader experienced in driving technical adoption and executing measurable institutional improvements.

EDUCATION

Prairie View A&M University | BBA in Management Information Systems Prairie View, TX | Expected May 2027
GPA: 3.3 | **Awards:** 3rd Place Winner: Sandia Labs Panthers Invent & BPDA FI2L Pitch Competition, Deans Honor Roll
Coursework: Object-Oriented Programming, Java, Networking, Fundamentals of MIS with ERP, Business Statistics

PROFESSIONAL EXPERIENCE

YMC Marketing | Student Google Gemini Ambassador Prairie View, TX | Sept 2026 – Present

- Managed logistics for a two-day campus activation, demonstrating new Gemini features to 500 plus students and driving active registrations for the Gemini Student Pro plan.

Prairie View A&M University (CITE) | IT Support Specialist Prairie View, TX | Sept 2026 – Present

- Optimized library IT operations and workflow efficiency by managing technical support requests and minimizing downtime across campus infrastructure.

PVAMU College of Business | IT Operations Intern Prairie View, TX | Jan 2026 – Aug 2026

- Maintained college-wide technical operations by executing software updates across all computer systems and resolving hardware issues for desktop terminals, projectors, and 3D printers.

Jones & Jones Strategic Consulting | Financial Assistant Frisco, TX | Jan 2019 – Present

- Reduced annual tax reporting turnaround from 3 days to under 4 hours by architecting custom Microsoft Excel models to automate data reconciliation and compliance.

TECHNICAL PROJECTS

Predictive NBA Analytics Pipeline | Independent Project Remote | Jan 2026 – Present

- Achieved an 88.9% historical hit rate by engineering an automated Python pipeline on Claude Code and Kiro AI, optimizing asset selection via a custom 12-filter methodology cross-referenced with daily Statmuse analytics.
- Improved precision by 15% with a TensorFlow regression model that weighs variables such as travel and blowout-risk.

LEADERSHIP & CAMPUS INVOLVEMENT

Beta Alpha Psi (Prairie View A&M Chapter) | President Prairie View, TX | Aug 2026 – Present

- Spearheaded chapter revitalization, driving a 60% increase in active membership to achieve Silver designation, and architected a mentorship track for underclassmen to ensure long-term organizational leadership.
- Coordinated strategic partnerships by securing leaders from 20+ companies for professional development speaking engagements and collaborating with 5+ campus organizations to execute high-impact community service events.

PVAMU Strategy Group | Director of IT Prairie View, TX | Jan 2026 – Present

- Consulted with student entrepreneurs alongside CoB senators to identify market gaps, engineering an MVP solution and successfully securing \$5,000 in AWS funding for continued application development.

Dean's Student Advisory Council | Council Member Prairie View, TX | Jan 2026 – Present

- Architected a centralized digital infrastructure for all College of Business students and organizations by leading the rollout of a Microsoft SharePoint and Teams communication hub.

Additional Roles: BDPA (Membership Chair), B.E.A.U.X. (Co-Chaplain), NSN, NSBE, ColorStack, Scholars of Finance, PVAMU Banking Program, AMA, PV Green Team.

TECHNICAL SKILLS

Languages & Tools: Python, Java, C#, SQL, HTML, CSS, TensorFlow, Git, VS Code, Microsoft 365, Google Analytics.
Competencies: Data Analysis, Machine Learning, Workflow Automation, Financial Modeling, Generative AI.
